

MicroPort is now in India

- *A leading global device company MicroPort announces its entry into India with its flagship technology TES (Target Eluting Stent) - FIREHAWK*

New Delhi, February 28, 2017 - MicroPort Scientific Corporation ("MPSC") (HK: 853), a leading global medical technology company dedicated to innovation, manufacturing and marketing high-end medical devices, today announced commencement of its Indian operations.

The Indian arm MicroPort Scientific India Pvt. Ltd., a wholly owned subsidiary of MPSC, is aimed to serve the Indian patients with high-quality and yet affordable medical solutions to save, reshape and improve quality of their life.

"India has the third largest PCI cases in the world, and the market has been experiencing rapid growth in recent years. The establishment of the Indian subsidiary marks another solid step forward in strengthening the global presence of MPSC," said **Mr. Jonathan Chen, Senior Vice President of International operations and Investor Relations.**

"MicroPort™ Scientific is becoming a true global player and it is dedicated to the ideology of "The Patient Always Comes First". With the launch of Indian subsidiary, we hope to offer better solutions of interventional therapies in the Indian market, and bring patients a whole series of affordable medical products." Mr. Chen added

MicroPort Scientific Corporation, founded in 1998 in Beijing has become a premier medical solution provider covering 10 major medical disciplines including interventional cardiology, orthopedics, interventional radiology, electrophysiology, diabetes and endocrine management, surgical management and others. With its products currently approved for use in over 5,000 hospitals in 80 countries worldwide, MicroPort® Scientific is contributing to a better world through its life-saving medical therapies and quality-improving care devices being used in patients every 15 seconds. Paving way for more achievements, under its ambitious global expansion program, Microport has acquired Ortho Recon business of Wright Medical, USA and has made a strategic investment in Lombard Medical of U.K.

Mr. Riyaz Desai, Managing Director India, commented "We see this as a new beginning in the Indian healthcare service industry. It is not just about being able to access a range of products with proven track record especially a path breaking product TES (Target Eluting Stent)) called FIREHAWK, but also leverage on MicroPort's vast experience and research in this space. It is opening of a new chapter in Indian MedTech industry, as this dynamic & promising Indian market has been showing a paradigm shift in its healthcare delivery mechanism. We are here not only at an opportune time, but I genuinely feel that Indian medical eco system is maturing and is increasingly receptive to best in class medical care."

MicroPort's India entry coincides with 8th edition of INDIA LIVE, country's biggest and most respectable international educational event by Interventional Cardiology Foundation of India (IFCI) which begins on 1st march' 2017 in New Delhi. MicroPort has significance presence at the INDIA LIVE 2017.
